I Will exists in two main forms. A self created single and the resolution of the Resolve Tour. After writing the skeleton of the song other musicians were invited on to play parts orchestrated around the original lush arrangement. "will for short" — *Solo Project*

JANUARY 2020 - Interlochen, MI

To create *will for short*, Zak Kline reaches past his own personal experience to create a new image, a hybrid of who he is hidden beneath layers of insecurity, and who he wishes he could be. The pseudonym and anonymity provide a veil, disconnecting the project's voice from Kline directly, offering a distinct perspective with the freedom to create new sonic ideas and explore the view of an outsider.
